

SAI TEJA REVURI

Full Stack Developer | Backend Developer | MERN Stack Developer

+91 9154122026 | steja9759@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Python Full Stack Developer and Backend Developer with hands-on experience building REST APIs, backend services, and responsive web applications using Python (Flask, FastAPI), Node.js, Express.js, React.js, SQL, and Git/GitHub. Skilled in translating business requirements into scalable, data-driven solutions across full-stack development, database querying, and analytics dashboards. Certified in AWS Cloud Practitioner and Google Data Analytics, with a strong foundation in object-oriented programming, API integration, and automation. Seeking a Software Engineer / Python Developer role to deliver measurable technical and business impact.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, SQL

Frontend: React.js, shadcn/ui

Backend & APIs: Flask, FastAPI, Node.js, Express.js, REST API Design, RESTful Web Services

Tools & Platforms: Git, GitHub, VS Code, Postman, AWS

Core Competencies: Object-Oriented Programming (OOP), API Integration, Debugging, Automation, Version Control

KEY PROJECTS

Clinic Patient Record System • [\[GitHub\]](#) *React.js, Flask, Tailwind CSS, REST APIs*

- Engineered a full-stack patient management system supporting 500+ patient records, streamlining registration, medical history tracking, and prescription management.
- Designed and implemented 10+ RESTful API endpoints in Flask, reducing frontend-backend data request latency and improving reliability of clinical workflows.
- Built a responsive, user-friendly interface with React.js and Tailwind CSS, improving workflow efficiency and reducing average task completion time by 25%.

HireFlow – Job Portal • [\[GitHub\]](#) *React, FastAPI, PostgreSQL, Tailwind CSS*

- Developed a full-stack job portal enabling candidates to search and apply for jobs while allowing recruiters to create and manage job listings, supporting 200+ active listings.
- Implemented secure authentication, role-based workflows, and application tracking, improving recruiter workflow efficiency by an estimated 35%.
- Built dynamic job filtering with FastAPI and PostgreSQL, reducing average job-search time for candidates.

SQL Sense AI: Interactive SQL Learning Assistant • [\[GitHub\]](#) *Python, SQL, REST APIs*

- Created an interactive developer assistant that parses database schemas and breaks down query execution logic, improving learner comprehension of SQL concepts.
- Implemented schema-parsing scripts in Python to convert relational data structures into step-by-step execution guidance for 10+ schema types.

INTERNSHIP EXPERIENCE

Software & Data Development Virtual Intern — EduSkills Academy • *8-Week Program*

- Developed Python scripts and SQL modules to process data and power dashboard analytical workflows, reducing manual reporting effort.
- Applied code debugging, modular programming, and data cleaning routines across practical datasets, improving data accuracy for downstream analysis.

AI/ML Developer Virtual Intern — Google for Developers & AICTE EduSkills • *10-Week Program*

- Built Python algorithms and data processing scripts to explore machine learning workflows and core software engineering concepts.
- Utilized Git and GitHub for collaborative version control, code documentation, and iterative feature development across team projects.

CERTIFICATIONS

- AWS Certified Cloud Practitioner (Amazon Web Services) — Core cloud architecture, IAM, security, and deployment
- Data Analytics with Python & Power BI — EduSkills Academy — Practical validation in Python, SQL, and data solutions
- Google Data Analytics Professional Certificate — Coursera — Database querying, data modeling, and structured problem solving

EDUCATION

Kakinada Institute of Engineering and Technology — Bachelor of Technology in Computer Science and Artificial Intelligence, CGPA: 7.5

2024 – 2027

Aditya Polytechnic College — Diploma in Mechanical Engineering, Percentage: 80%

2021 – 2024
